

**POTENTIAL HAZARDOUS WASTE SITE  
IDENTIFICATION AND PRELIMINARY ASSESSMENT**

REGION	SITE NUMBER (to be assigned by HQ)
6	TX 9857

**NOTE:** This form is completed for each potential hazardous waste site to help set priorities for site inspection. The information submitted on this form is based on available records and may be updated on subsequent forms as a result of additional inquiries and on-site inspections.

**GENERAL INSTRUCTIONS:** Complete Sections I and III through X as completely as possible before Section II (Preliminary Assessment). File this form in the Regional Hazardous Waste Log File and submit a copy to: U.S. Environmental Protection Agency; Site Tracking System; Hazardous Waste Enforcement Task Force (EN-335); 401 M St., SW; Washington, DC 20460.

**I. SITE IDENTIFICATION**

## POTENTIAL HAZARDOUS WASTE SITE IDENTIFICATION AND PRELIMINARY ASSESSMENT SUPPLEMENT SHEET

Instruction - This sheet is provided to give additional information in explanation of a question on the form T2070-2.

Corresponding  
number on form

Additional Remark and/or Explanation

I.i.

Van Waters and Rogers Company, 4707 Alpha Road, Dallas, TX 75234 (Telephone: 214/239-9111) supplies Trichloroethylene solvent (approx. one 55 gallon drum every 8 to 12 months) to Euless Aero Components, Inc. (hereafter E.A.C. Inc.). The solvent is delivered by Van Waters and Rogers Company trucks to the E.A.C. facility. After the degreasing operations, Trichloroethylene wastes are temporarily stored in 55 gallon drums on-site and periodically picked up for off-site disposal by Malone and Company, 21-21st Street, Texas City, TX 77590 (Metro Telephone #214-742-7090, contact person: Mr. Paul Hamilton). The drums, containing the solvent and wastes, are stored on a concrete surface onsite.

Due to some variations in the process operations from time to time, E.A.C. Inc. had also started (from January, 1983) to use Trichloroethane as a solvent for degreasing the lubricated machinery parts. Delta Solvent and Chemical Company, 11344 Plano Road, Dallas, TX 75243 (Telephone: 214/341-0510 and 214/263-6870; Contact Person: Marsha Parker) supplies Trichloroethane (approx. one 55 gallon drum every 8 months) in company trucks to E.A.C., Inc. The drums (solvent and wastes) are stored on-site on steel racks and a concrete surface respectively.

The waste oils, after lubricating the various machinery parts, are stored in 55 gallon drums, on a concrete surface on-site. Strickland Oil Company, 5617 Dent Street, Fort Worth, TX 76117 (Telephone: 817-834-1491) picks up and reclaims the waste oil collected from the E.A.C. facility.

The scrap Aluminum and Steel Chips (approx. one truck load per month of each; stored in metallic containers resting on a concrete surface) are picked up by Lone Star Metals, 1401 East Stella Street, Fort Worth, TX 76104; (Telephone: 817-534-7161) for metal recovery and off site disposal.
